

THE LISMAN PROCESS

Inspired design doesn't appear out of thin air. See how the Lisman team translates your vision into your reality.

1 CONCEPTING

We begin each project by developing an understanding of your vision. We want to hear about any creative inspirations, styles you prefer, and identify any practical goals for how you want to use the spaces we are designing.

2 MATERIAL DEVELOPMENT

We design from the ground up, selecting flooring, cabinetry, countertops, wall finishes, and ceilings. Next, we address long-lead purchases (i.e. appliances or windows). We wrap with a clear hand off to your construction project manager.

4 MOBILIZATION

This is a crucial meeting between us and your construction team(s) that lays the foundation for how best to collaborate during construction. We will review spec sheets, discuss the order of operations, and establish a cadence for site visits where we come together to problem solve and discuss progress.

3 PRODUCT SPECIFICATIONS

Your contractor will thank you for this. We develop a reference guide that contains a specification sheet for every product going into the project – including the vendor and destination in your space – aiding communication and saving time over the course of your project all while ensuring we achieve your projects goals as quickly and efficiently as possible.

5 PROCUREMENT

Once the builder is off and running, we turn our focus to the items that make the space uniquely you. We will pull furniture profiles, fabrics, finishes, fixtures, and a few ideas to make you say wow.

6 APPROVAL & PURCHASING

Once all selections are approved, we purchase everything, receive it in our local warehouse, inspect every piece for any damage that occurred prior to arrival, and safely store it until installation day.

LISMAN STUDIO has been creating award winning interior designs for homes and businesses for over 20 years. With certifications and memberships in LEED, IIDA and ASID, we offer world-class design on all levels.

Want to learn more? Contact Kristina Weaver at Kristina@LismanStudio.com or 801.931.2670.

7 INSTALL

This is the time when the totality of your project is realized! We use professionals – specific to the interior design industry – for white glove delivery and installation. And your design team will be on site to put everything together including accessories for final touches.
